DETAILED ACTION

1. Claims 31-33, 37, 39, and 44-47 are pending and being acted upon.

2. Applicant's amendments and remarks filed 9/25/07 are acknowledged. In view of Applicant's amendments, all previous rejections have been withdrawn

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 39, 44, 46, and 47 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1 and 6 of U.S. Patent No. 7,288,254. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the '254 patent recite a method which renders the claimed method obvious.

5. Claims 31-33, 37, and 45 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1 and 2 of U.S. Patent No. 6,632,928. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the '928 patent recite an immunotoxin which renders the claimed product obvious.

Art Unit: 1644

6. Claims 31-33, 37, and 45 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-32, 45-78, and 116-119 of U.S. Application No. 10/296,085. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the '085 application recite an immunotoxin which renders the claimed product obvious.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented

7. No claims are allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (571) 272-0843.
